

# Team Budget Planner

- Open Visual Studio Code
- Right Click on the folder of the project
- Select New File -> Enter the filename as **index.html**
- In that file we need to display the content by using HTML code.
- Select New File -> Enter the filename as **style.css**
- Then in that html page we need to link the style.css file using link attribute.
- Select New File -> Enter the filename as **script.js**
- Right click on the **index.html** file of the project.
- Select Open with Server.
- Right click when the server starts running.
